

HYPERALLERGIC

YOUR CONCISE SOUTHWEST US ART GUIDE FOR SPRING 2020

Your list of must-see, fun, insightful art events this season in the Southwest United States.

February 2020

Spring has sprung (or has started to) in northern New Mexico (where our Southwest US editor Ellie Duke lives), and that means it's time to come out of hibernation to explore the artistic offerings of the season. As always, there are many wonderful exhibitions, festivals, and art events taking place during the coming months throughout the southwestern US. We've put together our recommendations, and hope this wide-ranging list will inspire a season of road-tripping across the wide-open spaces of the region to experience its artistic happenings for yourself.

TEXAS

Solange Pessoa, "Untitled (Version Minas-Texas)" (1994-2019), installation (Mineral, vegetal, animal, juta bags, texts, photos) (courtesy the artist, Ballroom Marfa, Mendes Wood DM, Blum & Poe. Commissioned by Ballroom Marfa)

In Solange Pessoa's first US solo show, she has recreated an immersive installation that was originally staged in Brazil in 1994. Visitors can rummage through the strung tiers of coffee bags filled with organic matter — fruit, flowers, and bones among them — to co-create the space by spilling and moving the bags.
